

Report of mother tongue day celebration

Mother tongue is the language which a child starts hearing after being birth and thus, it also helps in providing a definite shape to our emotions and thoughts. Learning in your **mother tongue** also is crucial in enhancing other skills such as critical thinking, skills to learn a second language and literacy skills. To embark its importance mother tongue day celebration was done on 02-01-2017 by Rasrang club of TeamLease Skills University. The program was started with a welcome speech. The participants were supposed to come with a slogan on the importance of mother tongue. The students took part with great enthusiasm. The participants won the hearts of the judges and the audiences with their confidence, expressions and made the event really memorable. There were around 21 participants from different classes and streams , among students' 13 were girls and 8 students were boys.
